About Us:

Jenkins Enterprises is a multi-faceted designer, importer and distributor of gifts, souvenirs, novelties and licensed collegiate merchandise. Founded in 1976 by Allen and Kay Jenkins, Jenkins Enterprises has grown from a small family-owned business in Arkansas to nationally recognized leader in the industry.

With headquarters located in North Little Rock, AR. The company employs 45 full time workers and a team of independent sales representatives.

OUR CORE VALUES:

We believe that customer service is just that - a service - and in order to provide the service we must be 'Servant Leaders', striving to meet and exceed the desires of our customers. If we do this everything else will fall into place.

We believe that small customers and small communities deserve the same degree of respect, effort and service that larger customers and larger communities are afforded.

We believe that we live in a world and economy that is in constant change and that we must not just react to change; we must anticipate it and embrace it.

We believe that we must "over deliver" and offer "better than expected" products, services and prices. "Good enough" is not good enough at Jenkins Enterprises.

We believe that we must offer unique and niche oriented products that our customers will desire and look forward to.

We believe that we must offer a full product line to ensure that our customers are given a choice and to ensure that they can put forward a proper presentation of merchandise.

We believe that we must be proactive in developing new products, expanding our customer base and growing our business with our existing customers.

We believe that honesty and integrity should drive all aspects of our business. We can replace a customer but we cannot replace our reputation.

We believe all people are valuable and precious. We will not discriminate based on race, creed, religious affiliation, gender, sexual orientation, economic status, or national origin.

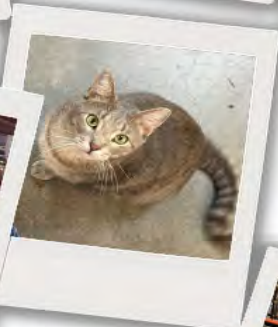

We believe God has entrusted us with the stewardship of this company for the express purpose of making a positive impact on the lives of our customers, our vendors and our employees.

We know you have a choice in collegiate merchandise and we appreciate your business!

Follow us on social media to stay up to date on our latest anniversary specials throughout the year.

DISPLAYS & RACKS

DISPLAYS & RACKS

DISPLAYS & RACKS

PRICING:

All pricing is single unit and includes 1 location 4-color process imprint or laser engraving.

SET-UP CHARGE:

\$35.00 per item on custom orders. Setup waived on quantities 144+

SHIPPING TIME:

Allow 2-3 weeks from artwork approval for production. Please note, if the item is licensed, we are at the mercy of the College / University for approval which may cause delays.

DIGITAL ART REQUIREMENTS:

Acceptable File Formats -- CDR, PSD, EPS, AI, PDF, in both MAC and PC formats are acceptable. We prefer 300-600 dpi EPS files. No files under 300 dpi will be accepted. All fonts must be either converted to curves (outlines) or you must include the fonts with the file.

UPC/ITEM TAGGING:

UPC's are available for \$0.10 per piece with retail pricing.

DIGITAL PROOF:

Free, Other proofing methods could require additional charges.

DEPOSIT:

30% Due before production begins.

LICENSING INFORMATION:

All products bearing a copyrighted mark are subject to licensing approval by the entity involved, any minor changes required will be made without notification, denials or large scale required revisions will be discussed with the customer before moving ahead with the order. All artwork remains the property of the licensed entity and a signed artwork release may be required.

DECORATION DESCRIPTIONS:

Sublimation Process:

A design is printed with special ink, then heat-pressed onto a coated product. The ink bonds with the surface, creating a vibrant, long-lasting image.

DTF Printing (Direct-to-Film):

A design is printed onto a special adhesive film, applied to a product, creating a vibrant and durable print.

Laser Engraving:

Laser engraving uses a focused beam of light to etch designs, text, or images onto a surface. The laser removes a thin layer of material, leaving a clean, precise mark that won't fade or rub off.

Pad Printing:

Pad printing uses a soft silicone pad to pick up ink from a plate and press it onto an object. It's great for printing detailed designs on curved or uneven surfaces like pens, drinkware, or promotional items.

UV Print:

This method uses ultraviolet light to instantly cure ink printed directly onto flat surfaces like wood, acrylic, metal, or glass. It creates sharp, colorful designs that are durable and resistant to fading.

Jenkins Enterprises reserves the right to not print any logo or message that is deemed inappropriate or that does not meet copyright guidelines.

All orders are subject to a 10% overage or shortage.
